That we, the Board of County Commissioners of Tulsa County, believe that a bridge across the Arkansas River at Jenks Township is at this time needed and required by the public, that such bridge will be about 1400 feet long,; that at this time by reason of the many demands on this new county, we the County Commissioners, deem it inexpedient at this time to order such bridge built, and the county,

Bills allowed,

Bridge across river at Jenks,

582
