

COMMISSIONERS JOURNAL, TULSA COUNTY, OKLA.

on the West Tulsa side:

- (1) For a roadway 30' wide, and one 6' wide- walk with single track electric railway, - - - - - \$179,400
- (2) For a roadway 30' wide with two 5' sidewalks, with single track electric railway, - - - - - \$185,950
- (3) For a 38' roadway and two 5' sidewalks, with double track electric railways, - - - - - \$233,400

The above figures include the bridges complete, including the street railway tracks, ties, etc., in place, and the trolley poles; but do not include the trolley wires and overhead work. If the ties and rails were omitted from the present construction the two first figures would each be reduced \$5000, and the latter figure would be reduced about \$10,000.

Such arrangement, of course, would necessitate tearing up the pavement and a certain amount of paving base in order to place the tracks at some future time.

We have been advised by the Engineers of the War Department that it will be necessary to secure a special act of Congress for the construction of the bridge. In previous similar cases we have secured the approval of the War Department for construction to proceed pending the passage of such an act, and we believe similar action may be taken in this case.

The drawings as shown will generally control the construction proposed, but there may be some slight variations during the working up of the details. We beg to request that you come to an early decision regarding the width of roadways desired, and advise us concerning any other features you may wish to have included in the final design so that we may proceed with the least possible delay with the preparation of the plans.

Very respectfully yours,

EEH

E. E. Howard.

The Board ordered Tax Sale Certificate No. 18091 embracing Lots 18 and 19 Block 4 of North Side Addition to Tulsa, cancelled by County Treasurer, and instructed Clerk to divide the same.

Tulsa, Okla., June 2-1915

To the Honorable Board of County Commissioners,
Tulsa County, Oklahoma.

Dear Sirs:-

Accompanied by Mr. N. R. Graham I have just completed the holding of eleven township meetings for the purpose of making decision for or against the Township and county Fair bill as provided for in house Bill No 380 a copy of which I herein enclose.

These meetings were legally advertised, boty by the posting of notices and by publication in several papers of the county, as required by the law.

For your information I hereunder give the results of each election.
