

MANAGEMENT CONFERENCE MAY 27, 1993 CONTINUED

electricity, space, and copies. He emphasized that incidental expenses should be incurred by the individual abstract companies. Larry Johnson, of Guaranty Abstract, said they need better copies than the county clerk's office provides on the clerk's equipment and Guaranty would be willing to pay for electricity. Hastings said the large copier in question is used only for this type of copies and that the clerk's office is doing the best it can with the equipment it can afford under the county's present budget restrictions. Dick suggested that the abstract companies split the cost of an improved copier to replace the copier presently being used instead of adding another copier to the existing power drain in the clerk's office. He suggested Guaranty and the county clerk's office discuss this and other possibilities next week and be prepared to offer solutions to the board at its June 10 meeting.

Chairman directed Edwards to work with Buck Rudd next week to assess space and electrical requirements to accommodate Guaranty's request and report back to the board prior to its June 10 meeting. He advised they should also determine the costs for abstract companies to bring in their own electrical lines and determine what amount abstract companies should be charged for use of electricity in the county clerk's office.

Smith mentioned that the court clerk's office also provides space and electricity to abstract companies. Chairman directed Edwards to look into fees charged and free services offered in all Tulsa County offices for later discussion by the board.

Dick discussed the free two-week Media Clips, Inc. subscription which the board has been receiving from Bill Wiseman. Following discussion, the board agreed that although a service such as this may be of some value to them individually, it was not interested in having the County pay \$35 per month for the subscription. Chairman will so advise Wiseman.

The meeting adjourned at 11:07 a.m.
