

Later I learned that said J. Garfield Buell had not seen my mother at all and that she knew nothing about his representations to me and that she had never said anything to this man about my land nor had talked to him about his services toward getting me released from this penitentiary.

Therefore I signed these deeds by mistake and misunderstanding caused by the misrepresentations made by the said J. Garfield Buell and I want said deeds revoked to make them null and void and of no consequence. I had given my mother Mrs. Kate L. Wallace full power of attorney to act for me and I claim that I have no right and authority to sign these deeds without her knowledge and consent.
